ROSE GASOLINE.

## The Harvesting Operations

Grain cutting in this district is now well under way, after the recent interruptions by rain. Wheat cutting is practically all in-hand by now, but the cutting of oats has been delayed on some farms owing to greenness. Grain cutting south and east of Stony has been more advanced than that in the immediate vicinity of the town.

A survey made by competent grain men show that the grade on wheat will be poor this fall—probably poorer than the grading given local wheat growers after threshing last year. Much indignation was expressed by the farmers last fall when, on hauling their grain to local elevators they were offered a much lower grade than they had expected. The big roller was on the grain graded "tough," and elevator men came in for much adverse criticism at the time.

That the latter were probably quite correct at the time in their diagnosis is shown by a sample case.

One farmer not so many miles north of Stony Plain last fall refused to accept the ultimatum of the grain-buyers regarding the "wetness" of his 1924 wheat, and kept it a year. He brought in a load Thursday last, and discovered it was "wetter" than a sample from the same bin he had had tested last November.

From present appearances there will be lots of work for the moisture tester to do when grain hauling begins.

## Herman Loeblich on Top.

The following from Monday's Journal makes good reading for the friends of Stony's former High School pitcher—

"Herman Loeblich's good right arm pitched Edmonton into the finals of the Provincial Baseball Championship, and Calgary into the discard—at Diamond Park when he engaged and got away with Gus McGinnity's Iron Man specialty of landing in both games of a doubleheader. Loeblich got credit for a 7-5 victory in the afternoon, and after a brief rest and a sandwich stepped right back on the hillcock and flung another defeat at the southerners, this time by a score of 7 to 1.

The double headed victory of Saturday gave Edmonton the three wins necessary to qualify for the finals against Fernie, and on the day's play there is no question of their meriting their championship status.

For being in the position of reaching the finals the Edmonton All Stars can give practically all of the credit to Loeblich. It's true he had eight comrades helping him—and they gave him noble support—but Loeblich undoubtedly is entitled to the big share of the laurels. He's pitched the 3 games Edmonton won, and lost the best three pitchers Calgary could parade against him."

## Signs of an Election.

Federal returning officers in different parts of Alberta are now applying to the Provincial chief election officer for copies of provincial proclamations applying to their respective constituencies.

The object of this is that the returning officers may make federal subdivisions correspond with those followed in provincial elections, and tends to the belief that preparations for a Dominion election are under way.

In addition to the setting of election bounds, it is anticipated that some enumeration work will be necessary. Enumeration will not take place in cities, but in country ridings provincial lists not more than two years old may be used.

## LOCAL NEWS.

Monday next, Sept. 7, is Labor Day and will be observed as a public holiday by all the good places of business in Stony. District people are asked to kindly keep this notice in mind.

Mr and Mrs Charles Clint of Edmonton were Sunday visitors with Mr and Mrs A R Michael.

W M Washburn and Miss Bertha motored to the City on Monday.

Cecil Umbach returned on Saturday from Lathbridge, where he had been employed.

Mrs. Donaldson has taken up her residence in Edmonton, where Maunly and Queefer are attending high school.

Mr and Mrs. Reutcher returned Saturday from their holidays spent at Nampa, Idaho.

Mr Bill Smith, who had been spending his vacation at Red Deer, has resumed his studies at the local school.

Mr Gustav Zucht is reported to have purchased Mr Elliot's house.

Mr E. F. Grogg has returned from a trip to his home in Chicago.

Mr Henry Miller is planning to build an extension to the pool hall on Main street, to accommodate two more snooker tables. It had been Mr Miller's intention a short time ago to erect a bowling alley, but there seems no present demand for such an institution.

The chances of a grain-door factory operating in town this fall appear very slim.

At the local Court on Saturday an assault case from Clynmont district was up for a hearing. After the evidence was all in, accused was fined \$10 and costs.

The supplemental exams for Grades 11 and 12 are being held this week at the University of Alberta, in Edmonton, and continues up to and including Monday, Sept. 7th.

On Monday afternoon, while engaged with a companion playing in the sand bank in the rear of Mr Michael's residence the earth caved in, engulfing Harold Outway. Some vigorous digging by a rescue party headed by Mr Michael brought the youth back to daylight.

Some local poultry owners "fancy" they have been missing some of their flock recently; but there is a known case in town where, when a hen-owner sees a big dog chewing at an old boot in daytime, they're sure they've lost some of their "feathered beauties."

Barth's Orchestra are giving a dance in Ducholke's Hall tomorrow (Friday) evening.

## Beware Of Dust

Once upon a time, says the Literary Digest, there was a small boy who was made to beat the family carpets each spring at the annual house-cleaning upheaval. In later years, grown to manhood, he marvelled that he had escaped death from inhaling clouds of germ-laden dust. He thinks that the heat of youthful indignation may have proved germicidal; and he recalls having vowed that there would be no carpets in his home of the future. Nor was the vow forgotten: the home of Dr. Allen Rogers, of Pratt Institute, is carpetless, and the scientist himself is able to note with satisfaction that today a carpeted house is the rare exception. He adds, however, that the change has come about "not because that boy disliked to beat carpets, but because people have come to realize their danger from a sanitizing standpoint." In an address delivered before a convocation of technicians, under the auspices of the Society of Chemical Industry, as reported in the Weekly Roster and Medical Digest (Philadelphia), Dr. Rogers elaborates the thesis that dust and germs go hand in hand. He tells of consanguine families, where the disease, supposedly "in the blood" was in reality lurking in rag carpets and plush furniture. And in particular he makes indictment of that modern refuge of the disease germ, the upholstered automobile cushion. He presents specimens secured with vacuum cleaner and with naphtha to prove that the fabrics from closed cars rival and outstrip the fabrics from furniture, drapery fabrics from closed cars as repositories of dust. Moreover—

"Cultures of the dirt removed from automobile cushions, furniture, and rugs give us positive proof that they are not sterile, as colonies of active germs develop while you wait. Germs are not particular about their lodging-place, and you may rest assured that all kinds have gathered here."

"Of what interest is it to you and me to know that carpets, rugs, furniture and automobile cushions are full of dust and germs?" It is simply this: We are living in a progressive and scientific age, we are solving problems of existence, and among the most important is our war against germs. Those of you who are listening may enlist in this army by taking every opportunity to kill the germ. The slogan "Swat the fly" also applies to germs. If you have carpets in your house, clean with a vacuum or sweep with an antiseptic salt. Put your rugs occasionally in the sun, and give them an antiseptic cleaning. Do not be satisfied with the vacuum or broom, but give them a naphtha sponge bath. Vacuum clean your furniture and rub over the fabric with naphtha or an antiseptic cleaner. Spray your rooms now and then, and in case of a contagious disease always fumigate.

"If your automobile happens to be upholstered in fabric, give it a good cleaning from time to time. Vacuum cleaning followed by a good sponging with naphtha will remove dust and kill germs, but go a step further and apply an antiseptic wash. Vacuuming is upholstered in leather or leather substitute, a soft rag dampened with naphtha will remove the grease and make it look like new."

"Help those who are fighting the great white plague by doing your bit to kill disease germs, and do this by eliminating dust receptacles. Or, if you cannot eliminate them, see that they are not made into incubators."

## B.C. Paper Mills

Product is Now Being Sold On An Ever Widening Market  
British Columbia paper is selling on a widening market. It supplies Western Canada and a large part of the Pacific coast states; 1,000 tons monthly goes to Buenos Aires; several orders were recently sent to Havre, France, which, it is expected, will become a steady market. A market has now been opened at Antwerp. As a result of the new Canada-Australia trade treaty, paper manufacturers are looking for a big demand from that market, which had hitherto been restricted due to a high import duty demanded.

## Many Enjoy Trail Ride

More than 100 persons joined the ride of the Trail Riders of the Rockies on their horseback journey from Banff to Wapta Camp, via Marble Canyon and Lake O'Hara. The ride started on August 4.

## Will Reduce Building Expense

Platform To Do Away With Scaffolding Has Been Patented  
In building operations, a great deal of time and labor is expended in building and moving scaffolds. As a means of reducing this labor and expense, and to enable work to be done at an inaccessible elevation without the building of a scaffold, a vehicular extension support has been patented in America. It consists of a platform on wheels which may be easily raised or lowered. Even when extended to its greatest height, it may be propelled by hand or electric power and steered to any position. Collapsible when not in use, it occupies little space.

## Alberta Dairy Pool

Officials of the new Alberta Provincial dairy pool state that sufficient contracts have been signed up to warrant the establishment of a permanent organization.

# CHILDREN CRY FOR

**MOTHER—** Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Wm. D. Foster*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## Birth Rate On Decline

Low British Birth Rate For Second Quarter Year

The number of births in England and Wales in the quarter of the year ended June 30, 1916, equals the lowest birth rate ever recorded in any second quarter of the year except in 1917 and 1919.

The total number of deaths in the second quarter of this year was 113,000, a slight decrease compared with the corresponding period last year.

The infant mortality in the quarter ended June 30 last was 66 per 1,000 births, which equals the lowest rate yet recorded in any second quarter of the year.

## Joint Stiffness Goes,

Swellings Disappear,  
Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

## NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming all stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues and brings warm, comforting relief at once. No liniment compares in pain relieving power with Nerviline. It cures the minor pains and lites that arise in every family. Nerviline should always be kept in the home. Use it for Rheumatism, Lumbago, Neuralgia and Cold. 35 cents at all dealers.

## Divers Find City Under Sea

Ruins of an ancient city have been found by divers submerged 30 feet below the surface of the Mediterranean Sea, off the coast of Tunis, according to reports. The divers report many large stone buildings were visible. Archaeologists are preparing to make explorations.

## WHEN THE NERVES ARE OUT OF GEAR

They Need New, Rich Blood to

Restore Their Tone

Men and women with nerves out of gear become irritable and fretful and are blamed for ill-temper, whereas the fault is not theirs. Their poor health is the cause. The tired, over-busy wife or mother, whose household cares have worn her out; the breadwinner whose anxiety for his family has worried him until he is thin and ill; are the nerve sufferers who become run down, nervous, and in such cases a course of Dr. Williams' Pink Pills is necessary, for these pills make new blood and tone up the nervous system. The patient becomes full of energy, and happiness for themselves and others returns. Mrs. Wm. Hughes, Coldwater, Ont., has proved the value of Dr. Williams' Pink Pills, and does not hesitate to say so. "Two years ago I suffered untold agonies with my nerves. The pains in my head, my back, my limbs were unbearable. I was depressed and cranky all the time. All the rest of the time I was in bed. I felt much better. I continued their use with great benefit, and after my baby was born they were the only tonic that helped me nurse her. I found them a splendid blood purifier, and cannot recommend them too highly."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Will Likely Skirt Canadian Shore Line

French Airmen Plan Route For Non-Stop Flight

In the non-stop aeroplane flight from Paris to New York, which Lieutenants Francois Coll and Paul Taronon plan to attempt, the French airmen will likely pass over the Atlantic coast region of Canada. They will lay their course northward, crossing Cornwall, the southwest extremity of England, and thence proceed over South Ireland and then jump across the Atlantic to Southern Newfoundland. There they will turn and skirt the Canadian shore line southward to New York.

A hotel in Los Angeles, California, washes all coins before they are returned to the guests in the form of change.

Keep Minard's Liniment in the house

# Always have Mustard on the table.

It's not just custom that makes people take mustard with their meals. Mustard aids digestion and helps to assimilate the meals. It is a good habit to acquire. Mix it freshly for every meal.

# but it must be Keen's

## Try These Deserts

Orange Custard (serves 7)  
2 cups Borden's St. Charles Milk.  
cup hot water.  
tablespoons cornstarch.  
2 eggs.  
1/4 teaspoon salt.  
1/4 cup sugar.  
3/4 cup orange juice.  
2 tablespoons lemon juice.  
Grated rind of one orange.  
1 cup sugar.  
Mix cornstarch, sugar and salt, dilute with cold water. Add to scalded milk and hot water, stirring constantly until mixture thickens, afterwards occasionally; cook fifteen minutes. Add orange juice and slightly beaten eggs that have previously been mixed; mix thoroughly and lastly, add the lemon juice and orange rind. Cool and serve.

Caramel Custard (serves 6)  
1 tall can Borden's St. Charles Milk with enough water to make 1 quart.  
5 eggs.  
1/4 teaspoon vanilla.  
1/4 cup sugar.  
3/4 teaspoon nutmeg.

Gradually sift sugar into a hot skillet, shaking the skillet vigorously all the time to prevent burning. The sugar should melt about as fast as it is sifted into the pan. When it turns to an amber color (a light resin color) set on back of stove and add milk, being careful that milk does not bubble over, as is liable on account of the high temperature of sugar. As soon as the sugar is melted in the milk, add nutmeg gradually to eggs slightly beaten. Add the salt and flavoring to egg and milk mixture. Bake in custard cups in a moderate oven.

May Succeed Lord Byng  
Name of Viscount Allenby Has Association For Canadians

Rumor has it that Viscount Allenby may succeed Lord Byng of Vimy in the post of governor-general of Canada. His name has associations for Canadians, for after serving under Lord British with the Old Contemptibles, he was placed in command of the Fifth British Army Corps at the second battle of Ypres, in which the Canadians figured so brilliantly. In the summer of 1917 he was appointed to command the campaign in Palestine, and curiously enough his name apparently fulfilled an age-old prophecy which says that Allah-Nob, a prophet of God, would free Palestine. Another tradition was that "not until the waters of the Nile flowed into Palestine would the Turks leave Jerusalem."

Minard's Liniment used by physicians

Robbing Peter to Pay Paul

While on the one hand we cannot especially in view of our enormous annual payments to America, do without the reparations which Germany owes us, we are to a large extent paying them out of our own pocket so long as they arrive here in the form of goods, which deprive our own people of work London Reference.

## Came Long Distance To Re-union

New Zealander 82 Years Old Visits Kitchener, Ont.

Perhaps the oldest man at the reunion in Kitchener, Ont., and the one who came the longest distance to take part in the celebrations was Matthew Weber. Six months ago, while listening in on the radio, at Otaki, New Zealand, where he lives, Mr. Weber heard the news of the Kitchener Old Boys' Re-union broadcast. He made up his mind that since he had not been in the city in 62 years he would take advantage of the re-union to go back and meet his old friends. Mr. Weber is 82 years old and is in excellent health with the exception of deafness. Mr. Weber was born at Chichester 82 years ago. He left 62 years ago, finally settling in New Zealand.

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powder clears the stomach and bowels of worms and will set upon the system. It will be sure to be of recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

Honor To Shoemaker

William Sturgeon, a shoemaker living in England many years ago, gets the credit for the present successful operation of dynamos, motors and transformers. Sturgeon invented the electromagnet, which in some form or other is used in the manufacture of most present-day electrical power machines.

Choked For Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

Slaughter Painless

A new weapon for slaughtering cattle painlessly has been invented by Mrs. Simons, of Paris, founder of the League for the Protection of Animals. A dart from a gun is shot into the brain and death is said to be instantaneous and painless.

A Prime Dressing for Wounds.—In

some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thompson's Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

What is said to be the world's deepest gas well has just been completed in Pennsylvania. The engineers had to go down 7,428 feet, and gas is flowing at the rate of half a million cubic feet a day.

Genuine  
ASPIRIN

Proved safe by millions and prescribed by physicians for  
Headache Neuralgia Colds Lumbago  
Pain Toothache Neuritis Rheumatism

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocristalline Aspirin. Bayer Manufacture of Aspirin is the only manufacturer of Aspirin in the world. Bayer Manufacture of Aspirin is the only manufacturer of Aspirin in the world. Bayer Manufacture of Aspirin is the only manufacturer of Aspirin in the world.

# Amazing Hold That Wheat Has On Our Every-Day Life And History Of The World

It may seem a hackneyed subject, for it is in the mind and on the tongue of everyone today—farmer or business man—from Halifax to Vancouver. It is before our eyes wherever we go, all over the provinces, and the sight of two or three stalks of wheat in the hands of multitudes of husky harvesters from 6 a.m. till set of sun.

And yet it may be questioned whether or many of us have ever paused to consider the really amazing hold the wheat has on our every-day life and on the history of the world.

The prairie is all golden with it now; and soon the stunted stock-rows, stretching round and round the sections, will be crawling up the ahead holders day after day; behind the humming separators the straw piles will rise like little hills, grain wagons will be on all the roads, and a million hands be bustling from dawn until the stars appear.

Yet this is but the climax to a whole year's toil and thought; for we dream of wheat all winter, work for wheat all spring, worry over wheat the summer through, and slave at wheat from early fall until the snow is on the ground again.

The truth is that no gold or gems were ever sought for with half the frantic energy we spend on wheat.

Equally striking is the place wheat holds in the realm of national history. Richard I. of England, looking out across the wheat fields of Southern England many years ago, saw in them a reason why invasion after invasion swept those shores in ancient days.

First the Romans, next the Saxons, then the Danes, and last of all the Normans came and saw and conquered. They needed golden acres, they sought rich grain lands, they wanted wheat. "The wheat fields are the battlefields of life." If not so openly lavished as in the present time, the struggle between nations is still one for the ownership or for the control of corn. Iron mines, coal mines, factories, furcuses, the counter, the desk—no one can live on iron, or coal, or cotton—the object is really riches of wheat.

The wheat which will be rushed to elevators on all our roads this fall is much the same as that which grew in the little fields of Scotland when Burns yielded the sickle, and Highland Mary bound the sheaves for her lover; it is even much the same as that which waved in the pleasant valley of Bethlehem in days when Ruth gleaned after her kinsman's reapers, and found her soul the golden harvest of love; it is even much the same as that which waved in the pleasant valley of Bethlehem in days when Ruth gleaned after her kinsman's reapers, and found her soul the golden harvest of love; it is even much the same as that which waved in the pleasant valley of Bethlehem in days when Ruth gleaned after her kinsman's reapers, and found her soul the golden harvest of love.

But the wheat of today, and the wheat of ancient Egypt, cannot be called wild wheat. It is wheat civilized, cultivated, developed and perfected. And this development has not been the work of any experimental farm. Behind the wheat of today, and the wheat of ancient Egypt, lies the heroic unrecorded story of ten thousand years of agriculture. The triumphs of modern farming are worthy of highest admiration; but they fade away into comparative insignificance when compared with the work done ages before the dawn of history, by humble and forgotten tillers of the soil.

Look again at that sea of wheat under the harvest moon. Rank on rank the sheaves are standing, miles, on miles of them, a ghostly army rising out of the buried centuries. In the light of day you might tell me that the age of those sheaves was somewhere round a hundred years; but here, in the moonlight, you realize that they were already old before the Pyramids were planned.

So, we take our hats off to the Ancient and Honorable Order of the Bushmen, who turned wild corn into wheat, and gave the world bread from "the acres of the field."—Rev. R. Graham, B.A., in *The New Outlook*.

**Dolly's House At Windsor Castle**  
The Queen's dolly house, which was inaugurated last year at Wembley, now resides in Windsor Castle, in a room specially designed by Sir Edwin Lutyens. It will be exhibited to the public before long at all hours when the Castle is open to visitors.

W. N. U. 1922

## Depth Of Wheat Seeding

Seeding to a Depth of From Two to Three Inches Most Satisfactory  
From 1912 to 1923 an experiment was conducted at the Brandon, Man., Dominion experimental farm testing the effect of sowing wheat at depths of one, two, three and four inches. The soil used has been heavy clay loam and the test has been conducted each year on summerfallow. In ten years the average has been per acre: One inch, 38 bush, 49 lb.; two inches, 39 bush, 36 lb.; three inches, 39 bush; four inches, 36 bush, 15 lb. In his report the superintendent states that similar results have been obtained with oats on fall-ploughed land, that is, that the intermediate depths have given the best yields. The proper depth, however, must depend on the kind and condition of the soil. If too near surface there is danger of surface drying; if too deep the seed has too far to travel to reach the open air and is weakened by the effort. Heavy, finely worked or moist soil is consequently, the superintendent points out, more suitable for shallow seeding than light, lumpy or dry soil. Under most conditions seeding to a depth of from two to three inches will be found satisfactory.

## Praise For Canadian Cattle

Command Premium in Great Britain

Save Big Cattle  
Canadian must press upon their government to take a more aggressive attitude in order that Canadian cattle may be admitted to Great Britain on equal terms with Irish cattle, declared T. J. Irvine, of Glasgow, the leading dressed meat dealer in Scotland and vice-president of the Livestock Producers of Canada, Ltd., in addressing the Saskatchewan board of trade.

"The premium Western Canadian cattle bring in the British markets over Irish cattle is not a premium at all; it is a recognition of the quicker gains the Canadian animal makes in the Old Country feed lots," he said. "Canadian cattle are the healthiest animals that touch the shores of Great Britain. They are better lived, possessing a vigor and virility which the Irish cattle do not possess. If the Canadian farmer will provide themselves with the right type of foundation stock, his premium will not be in shillings, but in pounds per head."

## Grasshopper Control

Both Natural and Artificial Methods Should Be Studied

Messrs. R. C. Treharne and E. R. Buckell, of the Dominion Dominion, are authors of a bulletin, No. 29, of the department of agriculture, Ottawa, dealing with the "Grasshoppers of British Columbia, with particular reference to the influence of injurious species on the range lands of the province." While the authors thus circumscribe themselves there is much in the bulletin of a great deal more common interest. As they say, while in gardens, on meadows and in cultivated grain or hay fields, grasshoppers can be controlled by poisoned bait, by artificial barriers, or, in some cases, by cultural methods, on the open range such measures can only be practised with difficulty. This being the case the study of both natural and artificial measures of control becomes of prime importance. In furtherance of this, the bulletin commends itself.

## Old Bell Legends

July, the month of thunderstorms, used to be a busy time for the bell ringers, for old-time country lore recommended ringing the church bells as the surest means of dispelling thunder, or preventing damage by lightning. Some of the old bells bear witness to the belief in their inscriptions. As: "The winds so fierce I do dispense," and "Lightning and thunder I break asunder," while church accounts in bygone centuries contained many items for refreshments or money "to ringers in the thunder."

## Would Help

"I'd be much better off if they'd put that sign on the mail box."  
"What sign?"  
"Post no bills."

## Rats Invade The West

Are Now Found in Eastern Part of Saskatchewan

"Kill the Rat," is the title of a sanitation bulletin recently issued by the Saskatchewan department of public health, in which an urgent appeal is made to the people of Saskatchewan to take active steps to check the invasion of this province by these pests.

"The rat is responsible," says the bulletin, "for the spread of bubonic plague through the flea which infests the rat's fur. Plague, or 'black death' has killed 25,000,000 people in Europe, and is today prevalent in India, Asia and Africa and in recent years has been carried to the continent of America. Canada, so far as has been known from this dread disease, but if our country is to be kept free from the menace of plague every community must concentrate on the destruction of the rat pest."

"Not only does the rat spread plague and other diseases, but he destroys property, kills poultry and eats grain and merchandise. The yearly damage done by the rat in the United States is estimated at two hundred millions of dollars. If our entire province becomes rat infested, the cost of the annual destruction to property and merchandise will be approximately \$1,500,000. It is now found in the territory east of a line drawn from the international boundary through Laupman, Broadview, Springdale and Prescville."

The bulletin discusses the various ways of destroying rats, which are given as destroying the nesting places, depriving him of his food, trapping, poisoning or asphyxiating him, and regarding the latter method it is stated that the exhaust gas from an automobile, known as carbon monoxide, may be used to advantage and is very deadly in a confined space. In field burrows or under stacks, a rubber hose should be fastened to the exhaust pipe and the other end inserted into the burrow and packed with damp earth to confine the gas. Having stopped all exits, the engine should be started and run up to 15 miles an hour for 15 minutes, which should finish all the rats.

## National Opulence

Wealth of Farming Industry Is Increasing Very Rapidly

Farmers who, as individuals, become discouraged, should take heart in the increase of \$145,783,000 in the wealth of Canadian farmers in 1921 over the previous year, with a total agricultural revenue of \$1,452,368,000. Workers in our "largest industry" cannot isolate themselves but must come to the conclusion that they are each part producers of national wealth and must recipients of benefits therefrom. Mortgages and blighted crops rise as ghosts but vanish when we look at the staggering figures of national opulence.—Grand Forks Gazette.

## Tokio Tunnel Is Soft

Construction of a subway at Tokio has been found very difficult because the ground upon which the city is built is in some places so soft that excavations have caused streets to sink a foot.

## Pride Winning Clydesdales For Canada

The above prize Clydesdale is one of a shipment of six splendid horses which were shipped from Glasgow recently on the Canadian Pacific steamship "Metagama," for Mr. James Torrance and Mr. Wm. McArthur, of Ontario. The exporters are Messrs. A. Montgomery and Co., of Jordonland, Kirkcubrightshire. The opinion of the experts is that this is one of the finest batch of horses that has left Scotland for many years.

# Value Of Tree Planting Is Now Better Understood By People Of Prairie Provinces.

## Sweet Clover Cultivation

Value of Clover As a Soil Builder Has Been Definitely Proven

In his pamphlet on "Sweet Clover," Mr. Derick, of the Brandon, Man., Dominion experimental farm throws out some suggestions deserving of consideration, not only in his own province, but generally elsewhere. After alluding to the fact that the value of sweet clover as a soil builder has been definitely proved, Mr. Derick says: Sweet clover can be depended upon for good yields of hay under almost any conditions of soil and climate; as a pasture it has a carrying capacity unequalled by most crops; it is an abundant seed producer; it can be made into silage but to prevent stinkiness requires further maturity or to be mixed with some dry roughage; early seeding is recommended; when a nurse crop is used 10 or 15 pounds of clover seed per acre is a satisfactory rate of seeding; shallow seeding is preferable, provided the seed-bed is mellow and firm; seeding with a nurse crop at slightly less than the normal rate is most economical; cutting the crop in the early bud stage, leaving a four or five-inch stubble will make the most palatable hay and allow for a second growth; harvesting with the binder and curing in the sheaf will preserve the maximum amount of leaves and reduce the cost of handling the crop; bromus grass has advantage over other grasses as a mixture with sweet clover; growing sweet clover in fertilized rows for seed production is recommended; inoculation of the seed is inexpensive and is advisable on the newer fields.

## Feeder Purchase Policy

Government Offers Assistance to Eastern Canada Cattle Feeders

Announcement of a feeder purchase policy under which the Dominion livestock branch of the department of agriculture will again offer assistance to cattle feeders from Eastern Canada who purchase one or more loads of feeder cattle, either at one of the feeders or sales to be held this fall, or direct from the range area, is announced. Under the terms of this policy, the government will pay a one-way fare and incidental expenses of a feeder to the west, who will be expected to comply with certain conditions set forth by the department.

## Alberta Coal Unhappied

Very little—not more than two or three thousand tons—remains unhipped of the trial shipment of 25,000 tons of coal from Alberta mines. It was stated in response to inquiries. The remainder will likely be moved east after the bulk of the harvest grain rush has been carried, though the special rate for carrying this coal, made by the Canadian National Railway, was not effective after August 15th.

## Manitoba Butter

Western Product Increasing In Favor on the British Market

Manitoba butter, and the Canadian product generally, is increasing in favor with the British buyer to judge from recent letters to L. A. Gibson, dairy commissioner.

An importer writes from Glasgow saying that the quality was excellent in recent shipments, the only criticism being a high color than the trade requires in that city. In this connection, Mr. Gibson points out that there is little or no artificial color used at this time of year when the pasture is good and the pale butter is difficult to produce.

W. A. Wilson, dairy products representative, also writes of shipments which gave excellent satisfaction.

The difference between New Zealand, Australian and Canadian butter is fast narrowing. Mr. Gibson says, having come within three or four shillings on the 100 lbs.

## Decides to Settle Down

Captain Salk of the former Hapsburg army, has finished sowing his wild oats and has reached the conclusion that the life of a soldier is not all that it is cracked up to be. After all, his childhood's sweetheart is waiting for him when he begins to get along in years. Consequently he has taken unto himself a wife, who is comparatively of stunner age—16 years.

## GERMANY WANTED TO JOIN FRANCE IN SECURITY PACT

London.—France and her allies have invited Germany to enter into negotiation for a definite treaty intended to guarantee an endless era of peace in Western Europe.

The invitation was extended in a note handed to the German Government by the French ambassador at Berlin. It is a reply to Germany's note of July 20, on the subject of security.

In their reply, the French, in common with their allies, confine themselves to observations on only three points.

The points on which the French would postulate all future efforts to guarantee security are that the treaty of Versailles must be modified, that Germany should enter the league, not with the reservations, as Germany has suggested, and that provision should be made for compulsory arbitration of future disputes.

An early conference between the German foreign minister and the allied foreign ministers is already in prospect. Word came from Berlin tonight that the French, British and Belgian ambassadors had joined in a statement that the allies were "unable that their juridical experts should meet German experts as soon as possible to clear up technical questions and pave the way for a meeting of the foreign ministers. It is expected that the experts will get down to "roundable business" in London this week.

## No Drifters Wanted

Vancouver, Adopte Policy For Relief Work For Coming Winter  
Vancouver, B.C.—"No drifters need apply" and "No work, no pay," was the policy adopted for this coming winter in the matter of relief work according to a decision of the civic employment committee here.

Every railway station in the three prairie provinces "will be placarded with notices informing the population of drifters that relief work in Vancouver at the rate of \$2.00 a day for married men and \$1.00 a day for single men will be afforded only to men who can prove residence of six months in the city prior to application for relief work. In addition to the placarding of railway stations the city's policy will be advertised in prairie newspapers.

## Oppose One Big Union

A. J. Cook As Sponsor Severely Criticized In Britain

London.—A division of opinion has arisen among British trade unionists over the proposal to be submitted to the forthcoming Trades Union Congress, providing for the formation of a great industrial alliance of all the unions, representing 5,000,000 workers. A. J. Cook, general secretary of the Miners' Federation, is the main sponsor of the proposal, which is represented in the press as an attempt to capture the unions by the "Reds." The scheme is already meeting with opposition.

## French Troops Driven Back

London.—The Jerusalem correspondent of Reuters reports that the French troops have been forced to evacuate several towns and withdraw their lines before the retreating Druse tribesmen in Syria. The French are said to have evacuated Khirbat-el-Ghazli with losses and later the town was occupied by the enemy.

## Ask Life Sentence

New York.—Because he felt he was so old he was a burden on his friends and relatives, William Johnston, 79, arrested for vagrancy, asked Magistrate Elipheer to give him a life sentence. Johnston got three months in the Home for the Aged.

## Evacuate German Towns

Dusseldorf, Germany.—The French and Belgian troops have evacuated Dusseldorf, Duisburg and Ruhrort, and the "sanctions clause," which they had occupied since 1921.

Japan has the highest birth rate of any country in which vital statistics are kept.

W. N. U. 1922

## Britain Giving Farm Training To Unemployed

Men Sent to Canada or Australia After Completion of Course

London.—The ministry of labor, in conjunction with the overseas settlement committee, is establishing centres where a six months' residential course will be given to a limited number of unemployed young men to enable them to engage in farm work in Canada or Australia. The first one to be opened will be at Clayton, near Ipswich.

Applications from eligible young men from all parts of the country are invited. Those selected will be given free railway passages to Clayton, but they must undertake to remain in training there for the full six months' course and proceed direct to either of the two Dominions mentioned at the end of their term.

The applicants must be single men between the ages of 19 and 25, but suitable ex-service men, up to the age of 29, will be accepted. Only men who have no trade need apply.

Before any of these young men may emigrate to Canada or Australia they must be approved by a representative of the Dominion to which they wish to go.

## Delegates Clash Over

### Opium Question

Woman Envoy From U. S. Asked To Prove Her Charge

Geneva.—Opium smuggling into the Philippines brought the United States delegate, Mrs. Hamilton Wright into conflict with the British delegate in the League of Nations opium commission. She charged that a large amount of opium was sent from British North Borneo and wanted to know why the British could not stop the shipments as India had done.

Both Sir Malcolm de Levisque, Britain, and Sir J. Campbell, India, questioned Mrs. Wright's accuracy and she promised to produce figures.

The Indian Government informed the commission that India had stopped selling opium to Persia and to the Portuguese colony of Macao near Hong Kong, because consignments shipped to these places have been used illegally.

The Indian Government stated it would follow the same policy toward other countries when there was evidence of the improper use of opium.

## Germans Fight With French

Sixteen Thousand Germans Join French Foreign Legion

Paris.—Once, enemies at arms, 16,000 Germans, exactly half the total strength of the French Foreign Legion—are in Morocco fighting the battle of France against the rebellious Moorish tribesmen.

Applications from former German soldiers to be permitted to find their aid to their former enemies in the warfare against the Rifians are coming in such numbers that it is impossible for the French ministry of war to accept all of them.

## Standard Phone System Advocated

Halifax, N.S.—That the Telephone Association of Canada would be doing a national work if they brought about the adoption of standard methods of operation and apparatus which would make possible at some future time a universal telephone service was the point stressed by C. F. Sise, president of the Telephone Company of Canada, at the business session of the association.

## Heavy Rainfall Floods Tokio

Tokio.—Tokio was flooded as a result of almost 26 hours continuous rainfall. Electric lights, telephones and street car services were impaired. Honjo, the lower section of the city, is inundated, and thousands of homes have been flooded. Few casualties have been reported, but heavy damage is expected.

## Medicine Hat By-election

Edmonton.—The Medicine Hat by-election will likely be held near the end of September. Premier Giessefeldt expects to make definite announcement of the date during the next few days.

## Open New Cable Line

San Francisco.—A new direct cable line from London to San Francisco has been successfully tested. It will be opened September 5.

## Is Appointed Director

Sir George McLaren Brown, European General Manager of the Canadian Pacific Railway, who recently arrived in Canada to attend the funeral of the late George Morris Bosworth, chairman Canadian Pacific steamships. Later Sir George was appointed a Director of Canadian Pacific steamships in succession to the late Sir Thomas Fisher.

Sir George McLaren Brown, who was born in Hamilton, Ont., in 1865, was appointed agent of the company at Vancouver in 1887 from which post he was promoted by degrees to that of General European Manager. Sir George received the title of Knight Commander of the British Empire in recognition of his distinguished services as Assistant Director-General of Movements and Transport for the British Government during the last three years of the war in which capacity he served with rank of Colonel, Imperial Forces.

## JUSTICE SHOULD BE FOR THE RICH AND POOR ALIKE

Winnipeg.—Declaring that justice should be swift, certain and open alike to rich and poor, Right Hon. Lord Buckmaster, of Cheddington, former Lord Chancellor of England, told the annual convention of the Canadian Bar Association that in his opinion, the legal profession deserved the reproach that while the poor man was sure of even justice from the bench, he was not sure to get it from the bar.

Lord Buckmaster advanced a possible means to remove this reproach when he suggested that every lawyer take a certain number of poor men's cases every year.

The law, Lord Buckmaster believed, should extend "not only from man to man, but to angry and warring nations, until justice prevails over the earth."

Lord Buckmaster's address was followed by tumultuous applause, with the audience rising to its feet and on the motion of Chief Justice Anglin, the distinguished Britisher was made a life member of the Canadian Bar Association.

In opening his remarks, Lord Buckmaster declared that the world was "still in the morning of time" and the forces which threaten society, were among those which lawyers should control as the guardians of liberty.

No lawyer, he continued, should entirely separate himself from the arena of making law to be confined in his work to the administration of law only.

## Pain Causes Loss to Millers

Edmonton.—Recent rains and cold weather in Northern and Central Alberta have set back local millers in turnover at the rate of \$20,000 per week according to the estimate of one Edmonton miller. It is also estimated that the period of delayed milling operations has been two weeks, so that total loss in turnover is around \$40,000, all due to interruption of harvesting and the longer period necessary for grain to dry out sufficiently for milling purposes.

## Snow in Foot Hills

Edmonton.—Two feet of snow fell west of Rocky Mountain House in the foothills of the Rockies last week, according to word which reached Edmonton. The crops south and west were flattened to the ground. Roads were impassable for a day or two.

## Europe Paying Up

Five Countries Are Clearing Up Debts To Canada

Toronto.—Venturing the prophecy that Canada was on the eve of the best year for business ever experienced, Hon. P. C. Larkin, high commissioner for Canada at London, who has just returned home for a brief visit, said here that her debt was gradually being reduced. The amount owed to Canada by five European countries was still large, but not nearly as large as three years ago, when \$200,000,000 was owing. Over \$100,000,000 of that had been collected over twelve months during the past year, Mr. Larkin stated.

"What are the prospects of collecting the balance of \$40,000,000?" he was asked.

"Well, literally, the balance is \$37,000,000, and I think we have good hopes of getting that in, too," he replied. "But at any rate, we are getting interest on it—something which we did not get for three years after the war."

The high commissioner was asked concerning the amount to be received by Canada under the Dawes reparation plan.

"We are gradually getting our allotted share," he replied, "and collected in reparation this year \$1,250,000. I think that plan will be carried out each year, giving us a larger amount for many years to come." Great Britain received her payments largely in kind, but, Mr. Larkin explained, that is equivalent to gold, as the goods are immediately sold and might be sold without ever being taken to Britain for sale.

## Report Canadian Banks In Good Condition

Have Plenty of Money on Hand For All Purposes

Toronto.—The Globe in a news item says that the statement of Sir Henry Thornton, president of the Canadian National Railways, that there is plenty of money available this year for moving the western crop, was corroborated by the general managers of two Canadian chartered banks, both of whom said the banks were in splendid shape for the financing of the grain harvest.

The Globe adds:

"They also stated that the same condition prevailed as regards all legitimate business enterprises throughout the Dominion, the banks having plenty of funds on hand. While in fact, the banks have not shown much change in recent months, and are about the same as they were a year ago, the fact that the money is available, not only for the crop movement, but for all sound business undertakings, is an encouraging one."

## Australia Will Soon Approve Trade Treaty

Government Corresponding With Canada Over New Regulations

Ottawa.—Correspondence, it is understood, is passing between the Canadian and Australian Governments in regard to the Australian regulation which, with exceptions, provides that before imports entering Australia are admitted to the British preferential tariff they must be of 75 per cent. British material and labor. The old regulation, which applied generally throughout the empire, including Canada, was 25 per cent.

It was an adoption of this new 75 per cent. regulation which caused a hitch in the negotiations between Canada and Australia over a trade treaty. The treaty had been concluded with the Commonwealth of Australia, which by order-in-council the Australian Government adopted the new regulation.

## To Be Deported

Vancouver.—Sixteen Chinese members of the crew of the steamship City of Victoria, who went on a sympathetic strike following it, is declared, orders from Shanghai, were sentenced to serve six weeks each in Okakia Prison, after which they will be deported.

## Explosives As Rain Maker

Greenville, S.C.—High explosives are to be used in rain making experiments here. The idea originated with a war veteran, who believes the artillery bombardment caused the heavy rainfall in France during the war.

## NEW AGREEMENT FOR SETTLING OF THE FRENCH DEBT

London.—A tentative agreement for settling the French debt on 62 annual payments of \$12,500,000 each was reached by Winston Churchill, British chancellor of the exchequer, and M. Caillaux, French finance minister. The total payments would thus be \$775,000,000, the original debt being \$233,000,000. The whole agreement hinges, however, on what terms the French debt to the United States is settled and on whether the French Government approves.

Mr. Churchill made it plain in a statement that the British were willing to go through with the bargain he and M. Caillaux have arrived at, only in the event that the United States receives no more from France in proportion to the size of the two loans than Britain.

On the face of this agreement, it would seem that Britain is willing to forego recovery of the principal of the sums she lent France provided that France pay slightly more than two per cent on their loan each year for 62 years—the time which it will take the British to pay their debt to the United States under the existing agreement.

## Austrian Chief Of Staff Dead

Commanded Forces On Russian Front During First Months of War

Vienna.—Field Marshal Baron Von Conrad Hotzendorf, chief of staff of the Austrian armies in the World War and late commander-in-chief on the Italian front, died Aug. 26, at Mergentheim, in Wurtemberg, Germany.

Franc Conrad Von Hotzendorf, born in Pest, a suburb of Vienna, Nov. 11, 1852, was chief of staff of the Austrian armies when the World War began.

In the first months of the war, he commanded the Austrian forces on the Russian front, but lost prestige owing to the Russian victories in the early months of the conflict. In 1915 he was credited with having planned the strategic preparations for the Austro-German attack which swept into the Russian rear, but lost prestige owing to the Russian victories in the early months of the conflict. In 1915 he was credited with having planned the strategic preparations for the Austro-German attack which swept into the Russian rear, but lost prestige owing to the Russian victories in the early months of the conflict. In 1915 he was credited with having planned the strategic preparations for the Austro-German attack which swept into the Russian rear, but lost prestige owing to the Russian victories in the early months of the conflict.

## Make Good Nurses

Canadian Girls Are In Demand In United States Hospitals

Ottawa.—Colonel William A. McIntyre, head of the Salvation Army activities in New England, which includes the operation of a number of large hospitals and similar institutions, has discovered that Canadian girls, especially those coming direct from rural communities, make the finest kind of nurses.

Col. McIntyre states that Canadian girls are much sought for in the training schools, because they seem temperamental fitted for the work, and have proven in most instances to be more adaptable to the requirements of the calling than girls born in the United States.

## U-Boat Blown Up

Copenhagen.—Another drama of the Great War ended at Vellby Beach, on the West Jutland coast. The German submarine, U-29, credited with the destruction of the Lusitania, torpedoed and sank off the Irish coast, May 7, 1915, with a loss of 124 persons, was blown up Aug. 25 by order of the Danish admiralty.

## Britain's Unemployment Increases

London.—There has been an increase of 29,000 in the number of unemployed persons in Great Britain, this making the increase in the past three weeks more than 100,000. The number now totals 1,295,000.

## St. Paul's Fund Now \$250,000

London.—The fund towards meeting the cost of the restoration of St. Paul's Cathedral, including subscriptions from various parts of the empire, now totals \$250,000.

**WELLAND SHIP CANAL.**

Section 6

Notice to Contractors.  
**GRADED TENDERS**, addressed to  
the undersigned and marked  
"Tender for Section 6, Welland Ship  
Canal," will be received at this office  
until 12 o'clock noon (Standard Time),  
Tuesday, September 22d, 1926.

Plans, specifications and form of  
contract to be entered into can be  
seen on and after this date at the of-  
fice of the Chief Engineer of the De-  
partment of Railways and Canals,  
Ottawa, and at the office of the En-  
gineer in Charge, Welland Ship Canal,  
St. Catharines, Ont.

Copies of plans and specifications  
may be obtained from the Depart-  
ment on the payment of the sum of  
one hundred dollars. To bona fide  
tenders this amount will be refunded  
upon the return of the above in good  
condition.

An accepted bank cheque on a char-  
tered bank of Canada for the sum of  
\$450,000.00 made payable to the order  
of the Minister of Railways and Can-  
als, or Bonds of the Dominion of Can-  
ada to the same amount or Bonds of  
the Dominion of Canada with an ac-  
cepted cheque if required to make up  
the difference, must accompany each  
tender, which sum will be forfeited if  
the party tendering the lines entering  
into contract for the work at the  
rates stated in the offer submitted.

The cheque or bonds thus sent in  
will be returned to the respective  
Contractors whose tenders are not  
accepted.

The cheque or bonds of the success-  
ful tender will be held as security or  
part security for the due fulfilment of  
the contract to be entered into.

The lowest, or any tender not nec-  
essarily accepted.

By order,

**Here and There**

The first batch of last winter's  
furs brought from the Far North by  
the steamer "Distributer," from Ak-  
lavik, has arrived at Edmonton,  
Alta., and is valued at approxi-  
mately \$1,000,000. Good catches of  
furs were reported throughout the  
north.

Sockeye salmon fishing around  
Vancouver, B.C., for the first three  
weeks of the current season, while  
not as active as last year, has, so  
far, resulted in fairly good catches.  
The latest reports indicate a catch to  
date of 55,000 cases, which is 2,000  
cases less than last year.

While the members of Dean Sin-  
clair Laird's party of school teach-  
ers from Ontario is returning East  
from their tour of the country the  
party of British teachers, who landed  
in Canada recently, is now travel-  
ling through the West on a special  
Canadian Pacific train to gain  
knowledge of the country and in-  
formation concerning its resources.

Construction of the half million  
dollar storage and power dam on the  
Muskoh River, authorized at its last  
session by the Ontario Legislature,  
has been commenced. The proposed  
work is designed to control the flow  
from the Muskoka Lakes basin and  
will enable the linking up of power  
development in that district with the  
Eugenia-Sovern system.

Passenger traffic over Western  
Lines of the Canadian Pacific Rail-  
way to date this summer has been  
particularly heavy, and a large num-  
ber of special trains and special cars  
being operated for British, Cana-  
dian and American tourists. Late  
side and summer tourist travel to  
the annual exhibition at Saskatoon  
and other Western points required  
the operation of special trains.

Construction of one of the largest  
and most modern departmental stores  
at Winnipeg, Man., by the Hudson's  
Bay Company will be proceeded with  
immediately, according to an an-  
nouncement by Mayor Webb of that  
city. A start upon the company's  
building programme here was as-  
sured, stated Mayor Webb, with the  
passing of a by-law by the City  
Council providing for a memorial  
boulevard flanking the Hudson's  
Bay property.

During the first half of August  
two important Ontario railway towns  
celebrated their Old Home Week and  
held pageants illustrative of their  
local histories and industrial activi-  
ties. These were North Bay and  
Smith Falls, both of which held  
G.P.R. Days and were the meeting  
points for thousands of railroad men,  
who assisted in the pioneering work  
of the districts. The Old Home Week  
at North Bay marked the gradua-  
tion of that town to full-fledged  
cityhood.

The funeral in Montreal recently  
of the late G. M. Bosworth, chair-  
man Canadian Pacific Steamships,  
was attended by E. W. Beatty, chair-  
man and president of the Canadian  
Pacific Railway, and nearly all the  
directors and executive officers of  
the company. An impressive and  
dignified procession followed the  
ceremony, a cortage being formed by  
the Company's police and officers  
and men from the crews of Cana-  
dian Pacific steamships.

A party of thirty prominent  
American society people, scientists  
and artists succeeded recently in  
making a new passage along the  
Wolverine pass across the northern  
Canadian Pacific Rockies with the  
Trail Riders of the Canadian Rockies.  
The Riders this year have many fam-  
ous men among them and six sepa-  
rate countries are represented. Twen-  
ty of the members wear gold and  
enamel buttons, showing that they  
have ridden 2,600 miles along the  
mountain trails.

## WORLD HAPPENINGS BRIEFLY TOLD

Emancipation of Turkish women has been made complete with abolition of police powers of censorship over dress. Hereafter women will be able to wear what clothes they like.

An Exchange Telegraph dispatch from Calcutta says 100 persons were drowned in the Maghna River, near Langghyia, by the capsizing of a ferry boat during a storm.

It has been decided not to call a special session of parliament for ratification of the Belgian debt funding agreement reached in Washington, but to postpone the discussion until the parliament re-opens in November.

Lord Bradbury, former representative on the reparations commission and one of the foremost authorities on European finance, declares that France is able to pay about 60 per cent. of her debts to Britain and the United States.

W. Hanks Amery, of the overseas settlement department of the British empire, interviewed on his arrival at Sydney, Australia, said the British Government was prepared to contribute largely toward the assistance of emigrants to Australia.

What cattlemen claim is a world's record price for a bull was paid at the annual cattle show, Buenos Aires. A prize winning Shorthorn bull, named Faithful, brought \$60,000. Faithful's father, when sold some time ago, brought \$44,000.

Miss Weston, a 70-year-old English woman, who has lived in Switzerland for many years, made an Alpine record for women by climbing the north slope of the Wetterhorn. His ascent is more than twelve thousand feet, which calls for endurance.

Eight hundred thousand motor cars from the United States entered Canada at Niagara Falls during June, July and August, it was estimated. Influx of United States tourists into the Dominion is reported to be 50 per cent. greater than last year, particularly at Windsor, Ont.

Mount Vesuvius has resumed extraordinary activity, the volcano erupting great quantities of ash and lighting up the whole countryside at night. Authorities at the volcano observatory, however, have expressed the opinion that no great danger is imminent.

FOR "Cholera Infantum" MOTHERS SHOULD USE

This valuable preparation has been on the market for over 50 years, and has no equal for offsetting the vomiting, purging and diarrhea of cholera infantum.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

## Will Give Double Service

Pacific Cable Is To Be Duplicated Next Year

The work of duplicating the Pacific cable from the Fiji Islands to Bamfield, Vancouver Island, will be finished next year, Sir Timothy Goghlan, member of the cable board and former agent-general in London for New South Wales, said on his arrival at Victoria from Australia on the liner Niagara. As the cable section from the Fiji Islands to Australia already has been duplicated, the whole connection next year will be able to give double service, he said. Sir Timothy is on his way to England.

## Heavy Tourist Traffic

Largest Influx of Tourists Ever Seen in Canada

Never before in their history have the National Parks of Canada in the Rocky Mountains had such an influx of tourists, both by rail and automobile, as this present season, according to a bulletin issued by the parks branch of the department of the interior. Last year the number of visitors was twice that of 1923, and this year, from returns already available, it is certain that the 1924 figures will be greatly exceeded.

Layette for the New Baby

Clothes for the new baby may be made with a great saving of time and trouble, when using the pattern for this layette. Every garment required in the new baby's wardrobe is included. The first long dress of soft nainsook is made daintily with tucks, and a yoke with touches of embroidery. A second dress of the same material has tucks running into the shoulder, embroidery and narrow lace trimming the neck and sleeves. A garter dress buttoning on the shoulders is worn beneath the dress, and to provide extra warmth for cool days a barrow-coat of soft wool with shaped top should be worn. A diaper band shirt with kimono sleeves buttoning up the front, together with nightgown having extension buttoning from back onto front, completes this layette, which is cut in one size only. Dress requires 1½ yards of 36-inch material; nightgown, 1¼ yards; straight petticoat, 1¼ yards; shirt, ¾ yard; diaper-band, 1¼ yards. Price, 20 cents.

Many styles having a smart appeal may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

## Canadian Universities

Nearly One in Eighteen of the Total Population Attend College

The total number of students in Canadian universities and colleges in 1924 was 55,529, or nearly one in eighteen of the total population, according to a bulletin issued by the Dominion bureau of statistics. Under the category of colleges, the total number known to have operated in 1924 is 83. Of this total six are agricultural, two technical, two law, one dental, one for pharmacy, one for veterinary science, 28 theological, 39 affiliated, one school for higher commercial studies, one college of art and one military college.

**Muscular Rheumatism Subdued.**—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Eclectic Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

## Business Conditions Improve

Confidence of U. S. Capital is Shown in the Dominion

Confidence of United States capital in the Dominion optimistic preparations for the new Canadian financing, prospects of a good crop, large United States purchasing in Canada, and heavy expenditures of American tourists in the Dominion, were some of the reasons offered by New York financial experts for the constant above par stand of the Canadian dollar on the New York exchange. The Canadian dollar is now at a premium on the New York exchange.

Protect the child from the ravages of worms by using Mother Graves' Worm Expeller. It is a standard remedy, and years of use have enhanced its reputation.

## Dolls Fly Low

A large shipment of dolls and jigsaw puzzles recently were sent to boys and girls of the most northern settlement of North America. The last 1,000 miles of the journey was by dog sled.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

## Birds Fly Low

Birds rarely fly more than 1,000 feet from the ground, a German scientist, after making a study from an aeroplane, reports. He also reports that few birds fly faster than 25 miles an hour.

FACE WAS DISFIGURED With Pimples. Terribly Itchy. Cuticura Healed.

"My trouble began with black-heads and pimples on my face. The pimples were large, hard and very red, and some of them festered. They were terribly itchy, causing me to scratch and the right side of my face was disfigured. The situation kept me awake, and my face was a sight."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and before long I saw a wonderful change. I continued the treatment and now I am healed. (Signed) Miss Louise MacDonald, Box 172, Mary St., Newcastle, N. B."

Use Cuticura to clear your skin. Sample Soap Free by Mail. Address: Cuticura, P.O. Box 286, Portland, Me. Send 10c for booklet. Send 25c for bottle.

## OUR CROSSWORD PUZZLE

- |                                 |                                  |
|---------------------------------|----------------------------------|
| Horizontal                      | Vertical                         |
| 1—Three violently.              | 44—Therefore.                    |

|                                 | 12—Hastened.                     |
|                                 | 13—Outlook.                      |

## SUNDAY SCHOOL LESSON

SEPTEMBER 6

PAUL WRITES TO THE PHILIPPIANS

Golden Text: I can do all things in him that strengtheneth me. "Philippians 4:13."

Lesson: Philippians 1 to 4.

Devotional Reading: Philippians 2:5-11.

The Text Explained and Illumined

Facts of which Saul of Tarsus was proud, versus 5, 6.—There were seven points which made Saul of Tarsus feel superior to most Jews. Five of them were these: He had been circumcised the eighth day of the stock Israel, of the tribe of Benjamin, a Hebrew of the Hebrews; as touching the law, a Pharisee.

Dr. O. S. Davis remarks that the items of which a man today would be proud, quite different and he translates Paul's into the corresponding terms of our own time: "I became a member of a Christian church at an early age; my ancestors came to America at the very beginning of the settlement; they were descended from the Stuart blood of England, and I have belonged to a family that has given ministers, teachers and professional men to the service of the country from the beginning, including ancestors in all the great wars that have been fought for freedom in America."

Furthermore, Paul had been zealous in persecuting the church; and had so scrupulously kept the law that he was blameless. These were facts that had given him great reputation among his compatriots. In his letter to the Galatians he writes: "Ye have heard of my manner of life in time past in the Jews' religion, how that beyond measure I persecuted the church of God, and made havoc of it; and I advanced in the Jews' religion, beyond many of mine own age among my countrymen, more exceedingly for the traditions of my fathers."

Minard's Ointment for Distemper

An old bachelor resembles a pair of scissors with only one blade.

Answer to Last Week's Puzzle

## The Chinese Point of View

Charge More For Articles Supplied in Large Quantities

The Chinese find it difficult to understand the British point of view as has been evidenced in recent events, and perhaps, illustrated by the experience of a gentleman visiting Canton a short time ago who saw name Mah-Jongg sets being sold at \$5.00 each. He inquired what he would be charged if he ordered 250 sets, and was told \$5.00 each. "You see," was the explanation, "it is so more trouble to make 250 sets than it is to make one, so we have to charge more!"

## RHEUMATISM

### Stony Plain and District.

Mrs Hy Oppertshanser and her brother Emil Baron arrived in Stony Sunday night from Blairmore, where they had been on a motor trip to their sister Mrs D. W. Pattie.

The C. N. Ry. has ceased running its Saturday excursion trains to the Beaches.

Geo Goldman, who had been living with Mr Geo Worsley, was taken to the City Saturday for hospital treatment.

Hy Treit went to Edmonton Monday to have an X-ray taken of his foot, which was injured in Sunday's game.

Mr Newman of the Edmonton staff, is filling temporarily the position of teller at the local bank, replacing Mr Walker, transferred to Vermilion.

Local cattlemen are shipping several cars of stock to Edmonton today.

On Saturday afternoon last while Mr Joe Kulak was motoring along the Beach road where it crosses the Meridian road, he was run into by an Oldsmobile driven by a local farmer. Joe's car was struck on the right side, completely demolishing the fender and bending the frame. Joe himself was knocked over to the right side, striking his head on the iron frame. His car was carried over to the north side of the intersection by the impact and the left front wheel demolished. The attacking car received slight injuries to the fender.

Inga Connors meet on Friday Sept. 4.

The Sun has been requested by several users of the road east from Gilbert's Corner to ask the question from the proper authorities why this mile of road can't be put in repair and kept that way. The complainants say work has been done on this stretch this season without any noticeable change for the good. As this piece is one of the principal roads to Stony Plain, a slight improvement would be greatly appreciated.

The Mission Festival at the Blueberry Church will be held Sunday next.

Clarke's Drug Store will present a Souvenir Pen Knife given to those buying school supplies to the value of one dollar or more. School text books not included in this offer.

A meeting of Liberal sympathizers in Peace River Riding was held Friday night last at Mewasin school, when Mr Rae, the Liberal nominee for the House of Commons, and Dr Oatway, gave addresses. F J Francey of Duffield was in the chair.

### Sporting Notes.

President Schmidt and his baseballers are to congratulate on the success of their sports day in Stony the beginning of the week. A large crowd of spectators was present.

The teams competing were: Walther League, Norwood, and a mixed team from Stony.

The first game was an easy win for Norwood from the Leaguers by 14 to 4. The visitors proved themselves to be pretty nifty fielders. Val Mohr pitched good ball, but did not receive the requisite support from his team mates.

Walther League: Hy Treit, Carl and Louis Enders, E. Golz, John K. Miller, C. Fehr, Val Mohr, Jac P. Ulmer, J. K. Ulmer. Geo Graden referee.

The losers then played Stony Plain, which resulted in a win for W. League by 5 to 4. This game was noticeable for its slowness. Stony was greatly helped by a good telephone man on first base.

Stony—Mayer, G. Graden, Sam Zucht, Lory, Laird, McCulla, Hal Laird, H. Miller, Phenomena. Wm. Lange referee.

Walther League then combatted Norwood for the championship. This was to be a 7-inning game. At the end of the 7th the game stood 6-6; at the end of the 8th the same. In the 9th Norwood scored the winning run.

Eric Heichen, of the Football Club, has succeeded in getting the Trovers football team to play Stony on local grounds Monday next, Labor Day. There will be a number of other events, including basketball games between local teams.

Manager Schmidt is arranging to bring his ball players to the City next, to play a City team.

### Spruce Grove News

A fire broke out the evening of August 27 in the pool hall, the ceiling catching fire from the gas light. Joe Miller promptly put it out with a hand extinguisher before much damage had been done.

Four of the local youths who attended Stony Plain High last session, have gone to the City to take grade 12. Reg Pinchbeck, Don Martin, Tom Johnson and Herman Loeblich.

On Sunday, August 23rd, twelve young people were confirmed in the Christian faith at St Matthew's Evangelical Lutheran Church at Spruce Grove. The rite of confirmation was administered by the pastor, the Rev G. Poetzsch. The catechumens were: Herman and Christoph Ducholke, Alec Ziegler, Rudolf Schultz, Paul Zalt, Walter Brox, Catharina Ott, Louise Lienau, Helen Schellenberger, Else Goebel, Florence and Lydia Zucht.

Owing to the next regular meeting of Spruce Grove M. D. coming on Labor Day, the meeting will be held Tuesday Sept. 8. Some discussion is expected on the much discussed question of the Herd Law and pound districts.

### Stony Plain and District.

Mr and Mas Hy Miller Jr. have gone to Jasper.

Mr Hardwick made a business trip to Edson this week. Dance at Holborn Hall on Friday Sept. 11; Barth's Orchestra.

Wheat dropped 19c. in seven days.

The first load of 1925 wheat was hauled to Mr Miller's elevator Monday by Carl White.

While engaged in chasing a porker on his father's farm on Monday, Eric Heichen had the misfortune to step on a rusty nail, which pierced his left foot. This will incapacitate him from playing ball for some time.

A supply of game licenses have been received at The Sun Office, where the 1925 game regulations may be seen.

### Interesting Announcement

Word comes from Montreal that that great family and farm paper The Family Herald and Weekly Star has been enabled to reduce its subscription price to One Dollar a year. This certainly will be interesting news in every Canadian home where the Family Herald is known; and to many who will avail themselves of the offer. At Two Dollars a year The Family Herald and Weekly Star was generally admitted to be good value, in fact, big value; but when reduced to One Dollar a year it will certainly be the marvel of the newspaper world.

Canada is proud of that great Weekly, and has every reason to be so, as it has no superior and few equals in the world today. The Publishers announce that notwithstanding the change in price every feature will not only be maintained but improvements will follow. The Publishers are fortunate in being in a financial position to do this, and Canadian homes will have the advantage. When the new rate is made known it certainly will bring a rush of subscribers to the Family Herald. One Dollar is a small amount for such a great paper.

### Price Paid for Gov't Farm

The full details regarding the sale of the local Demonstration Farm have just been printed in the Journal.

Dugald Campbell, who wrote two letters to Hon. George Hoadley about the Government demonstration farm at Stony Plain and didn't get any answer, and who then wrote to Premier Greenfield asking for his intervention, has now been given a long-awaited reply by the Minister of Agriculture.

Mr Campbell wanted to know when, how and for what price the Stony Plain demonstration farm was sold. Mr Hoadley's answers state that it was decided to sell the farm Jan 9, 1923; that the farm was advertised in local papers during the next two months; and was placed in the hands of three real estate firms in Edmonton, Calgary and Minneapolis; that it was afterwards sold direct by the Department to Mr C. Schultz of Vegreville, who is now occupying and operating it; that the price to the Government was \$14,200; and that no commission was paid on its sale, but that a reduction to the amount of \$442.81 was made in the sale price to the purchaser.
